3) Description:

i) History, Present Business and Background of the Portfolio Manager:

Northern Arc Investment Managers Private Limited (“NAIMPL”) is a company incorporated under the Companies Act, 1956 on 17th February, 2014, having its Registered Office at Chennai, Tamil Nadu. NAIMPL is a wholly owned subsidiary of Northern Arc Capital Limited. (“NACL”).

NAIMPL is one of the group companies of the reputed Northern Arc (formerly known as

IFMR) group. As a part of the mission to promote financial inclusion, the group companies have played an important role in providing access to funding towards the development of the Indian financial services sector. The group's work in the Indian financial services sector provides NAIMPL with a strategic outlook on the sector and the Trust has been conceived based on this outlook. NAIMPL's sole holding company, Northern Arc Capital Limited (formerly IFMR Capital Finance Limited) (Northern Arc Capital) has been a pioneer in capital market innovations, having been associated with the first ever listing of a securitised paper on the Bombay Stock Exchange. The group generally invests in securitisation transactions, typically taking positions that are subordinated to senior investors, which receives repayments only after the senior investors are fully paid out. In addition to participating in the securitisation transactions, Northern Arc Capital has also taken balance sheet exposures on several financial institutions across the country in the form of term loans, working capital lines and guarantees. Northern Arc Capital's structured finance approach to connect the Indian microfinance sector with capital markets is now a Columbia University case study.

NAIMPL already has experience in advising and managing pools of capital. At present, it is also Sponsor and Investment Manager for the following SEBI Registered Alternative Investment Funds (AIFs):

- IFMR Finance for Freedom Social Venture Fund, a Category I Social Venture AIF, registered with SEBI vide registration number IN/AIF1/14-15/0110

6) **Risk Factors:**

- The investments made in Securities are subject to market risk and there is no assurance or guarantee that the objectives of investments will be achieved, and the Portfolio Manager has no liability for any losses resulting from the Client availing of the Portfolio Management Services.
- Past performance of the Portfolio Manager does not indicate the future performance of the Portfolio or performance of any other future Investment Approach of the Portfolio Manager.
- Following are the current risk factors as perceived by management of the Portfolio Manager. This list is not intended to be exhaustive in nature and is merely intended to highlight certain risks that are associated with investing in Securities:
- **Risk associated with Debt and Money Market Securities:**
 - As with any investment in Securities, the Net Asset Value of the portfolio can go up or

down depending upon the factors and forces affecting the capital markets.

- The performance of the portfolio may be affected by changes in Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems in equity and debt markets.
- Investments in debt instruments and other fixed income securities are subject to default risk, liquidity risk and interest rate risk.
- Interest rate risk: Fixed Income and Money Market Securities run interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rate falls, the prices increase. In case of floating rate securities, an additional risk could arise because of the changes in the spreads of floating rate securities. With the increase in the spread of floating rate securities, the price can fall and with decrease in spread of floating rate securities, the prices can rise.
- Liquidity or Marketability Risk: The ability of the Portfolio Manager to execute sale/purchase order is dependent on the liquidity or marketability. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. The securities that are listed on the stock exchange carry lower liquidity risk, but the ability to sell these securities is limited by the overall trading volumes. Further, different segments of Indian financial markets have different settlement cycles and may be extended significantly by unforeseen circumstances.
- Re-investment Risk: This risk refers to the interest rate levels at which cash flows received from the Securities under a particular portfolio are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- There are inherent risks arising out of investment objectives, investment approach, asset allocation and non-diversification of portfolio.
- Prepayment risk: there may be unscheduled return of principal on a particular Security, which may result in a reinvestment risk.
- Credit Risk: Credit risk or default risk refers to the risk that an issuer of a fixed income Security may default on interest payment or even in paying back the principal amount on maturity. Because of this risk corporate debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well any actual event of default. Lower rated or unrated securities also tend to be more sensitive to economic conditions than higher rated securities.
- In case of investments in mutual fund, the Client bear the recurring expenses of the Portfolio Manager in addition to the expenses of the underlying mutual fund schemes. Hence, the Client may receive lower pre-tax returns compared to what the Client may have received had he invested directly in the underlying Securities of the mutual fund schemes.
- After accepting the corpus for management, the Portfolio Manager may not get an opportunity to deploy the same or there may be a delay in deployment. In such a situation the Client may suffer opportunity loss.

- Risk Associated with Securitized Debt: Securitized debt may suffer credit losses in the event of the delinquencies and credit losses in the underlying pool exceeding the credit enhancement provided. As compared to the normal corporate or sovereign debt, securitized debt is normally exposed to a higher level of reinvestment risk.
- Risk associated with investments in Market Linked Debentures: The Portfolios may invest in Market Linked Debentures, which are securities linked to index(s) and/ or underlying stocks or commodities and this could result in negligible returns or no returns over the entire tenor or part thereof. Further, at any time during the tenor of the Portfolio, value of the Market Linked Debentures may be substantially less than the actual value of the Market Linked Debentures at the end of tenor. Further, the Market Linked Debentures and the return and/or maturity proceeds of the Market Linked
- Debentures, are not guaranteed or insured in any manner by any entity. In case of occurrence of any event caused by a Force Majeure, the Portfolio may be liquidated at a date much before the tenor of the Portfolio at a fair value.
- Portfolios investing in debentures linked to silver/ gold may be affected by the prices of silver / gold. The prices of silver/ gold may be affected by several factors such as demand and supply in India and in the global market, change in political, economical environment and government policy, inflation trends, currency exchange rates, interest rates, perceived trends in bullion prices, restrictions on the movement/trade of gold by RBI, GOI or by the country importing/ exporting silver/ gold in/ out of India etc.
- Risk arising out of non-diversification: The investment according to investment objective of a Portfolio may result in concentration of investments in a specific security / sector/ issuer, which may expose the Portfolio to risk arising out of non-diversification. Further, the portfolio with investment objective to invest in a specific sector / industry would be exposed to risk associated with such sector / industry and its performance will be dependent on performance of such sector / industry.

12) Taxation

TAX IMPLICATIONS FOR CLIENTS.

The information set out below outlines the tax implications based on relevant provisions of the Indian Income-tax Act, 1961 (“**the Act**”) as amended by the Finance Act, 2021 and Chapter VII of the Finance (No. 2) Act, 2004 (“**Securities Transactions Tax Act**”/“**STT**”).

12.1 General

Investment in securities is subject to the provisions of the Act. Special reference needs to be made in respect of provisions related to capital gains, business income and all other provisions of the Act. Interest and dividend would be subject to tax as per the provisions of the Act. Client owns the liability for his Taxation.

The General Information stated below is based on the general understanding of direct tax laws in force in India as of the date of the Disclosure Document and is provided only for general information to the Client only vis-à-vis the investments made through the Portfolio Management Services of the Company. This information gives the income tax implications in respect of the securities are/will be held for the purpose of investments. In case the securities are held as stock-in-trade, the income tax treatment will substantially vary and the issue whether the investments are held as capital asset or stock-in-trade needs to be examined on a case to case basis. There is no guarantee that the tax position prevailing as on the date of the Disclosure Document/the date of making investment in the Portfolio Management Services shall endure indefinitely or accepted by the tax authorities. Further, the statements with regard to benefits mentioned below are expressions of views and not representations of the Portfolio Manager to induce any client, prospective or existing, to invest in the Portfolio Management Services of the Company. Tax implications of any judicial pronouncements/Double Tax Avoidance Treaties, etc. are not explained herein. The Client should not treat the contents of this section of the Disclosure Document as advice relating to legal, taxation, investment or any other matter. In view of the individual nature of tax consequence on the income, capital gains or otherwise, arising from investments, each Client is advised to consult his / her / its tax advisor with

respect to the specific tax consequences to him / her / it of participation in the portfolio management services. The Portfolio Manager shall not be responsible for assisting in or completing the fulfillment of the client's tax obligations.

In case of foreign investors, the taxation of income will be governed by the provisions of the Act read with the provisions of the applicable tax treaty i.e. Double Tax Avoidance Agreement (“DTAA”), if any. As per Section 90(2) of the Act, the provisions of the Act would apply to the extent they are more beneficial than the provisions of the DTAA. All the Tax Rates contained in this clause are applicable for the Financial Year 2021-22, in accordance with Finance Act, 2021.

12.2 Resident and Non- Resident Taxation

12.2.1 Resident Taxation

A resident investor will be subject to income tax on his / her global income. In the case of a resident but not ordinarily resident, any income which accrues/ arises outside India will not be subject to tax in India, unless it is derived from a business/ profession controlled from India.

A Hindu undivided family (HUF), firm or other association of persons is said to be resident in India in any previous year unless where the control and management of its affairs is situated wholly outside India during the year under consideration.

A Company is said to be a resident in India in the previous year if (i) it is an Indian Company; or (ii) its place of effective management is situated in India.

Every other person is said to be resident in India during the year under consideration except where the control and management of affairs is situated wholly outside India. The Finance Act 2020 has amended the minimum period of stay to qualify as a Resident of India from 182 to 120 days during the relevant Financial Year, in case of an individual who is a citizen of India or a person of Indian origin (PIO), who comes on a visit to India from Financial Year 2020-21 onwards and having total income (other than income from foreign sources) exceeding INR 15 lakh. Such a person would be treated as ‘Resident but Not Ordinarily Resident’ (RNOR) if his aggregate stay during the relevant Financial Year is less than 182 days. Further, Indian citizen who is not subject to tax in any other country by reason of his domicile, residence or any other criterion of similar nature would be deemed to be a resident of India only if such person has total income (other than income from foreign sources) exceeding INR 15 lakh and consequentially, subject to tax on his global income in India. Such a person, who is deemed to be a resident of India under this provision, would be treated as RNOR. It is clarified that the term ‘income from foreign sources’ would mean income which accrues or arises outside India, except income derived from a business controlled in or a profession set up in India. It is further clarified that this provision is not intended to tax those Indian citizens who are bonfide workers in other countries.

In addition to the above two categories of individual;/HUF, who becomes deemed resident of India, other Individual/HUF shall be said to be RNOR in India in a Financial Year, if the individual or manager of the HUF is non-resident in India in 9 out of 10 Financial Years or his stay in India is less than 730 days during the preceding

12.2.2 Non-resident Taxation

A non-resident investor would be subject to taxation in India if he derives (a) Indian-sourced income; or (b) if any income is received / deemed to be received in India; or (c) if any income has accrued / deemed to have accrued to him in India in terms of the provisions of the Act.

Section 6 of the Act was amended by the Finance Act, 2015 to provide that a foreign company should be treated as a tax resident in India if its place of effective management ('POEM') is in India in that year. The Finance Act, 2016 provided that the said amended provisions are effective from 1 April 2017. POEM has been defined to mean a place where key management and commercial decisions that are necessary for the conduct of the business of an entity as a whole are, in substance made.

The CBDT had vide its Circular dated 24 January 2017, issued guiding principles for determination of POEM of a Company ('POEM Guidelines'). The POEM Guidelines lay down emphasis on POEM concept being 'substance over form' and further provides that place where the management decisions are taken would be more important than the place where the decisions are implemented for determining POEM. The CBDT had vide circular dated 23 February 2017, clarified that provisions of Sec 6(3)(ii) relating to POEM would not apply to companies having turnover or gross receipts less than or equal to INR 50 crore during the Financial Year.

12.3 Multilateral Convention to implement Tax Treaty related measures to prevent Base Erosion and Profit Shifting

The Organisation of Economic Co-operation and Development ('OECD') released the Multilateral Convention to implement DTAA related measures to prevent Base Erosion and Profit Shifting ("MLI"). The MLI, amongst others, includes a "principal purpose test"; wherein DTAA benefits can be denied if one of the principal purposes of an arrangement or a transaction was to, directly or indirectly, obtain tax benefit. India has been an active participant in the entire discussion and its involvement in the BEPS project has been intensive. In a ceremony held in Paris on 7 June 2017, various countries including India, signed the MLIs. The Union Cabinet of India issued a press release dated 12 June 2019 approving the ratification of the MLI to implement tax treaty related measures to prevent BEPS. The application of MLI to a DTAA is dependent on ratification as well as positions adopted by both the countries signing a DTAA. India had ratified and deposited the MLI on 25 June 2019, as a result of which the MLI has come into force for India on 1 October 2019. Article 6 of the MLI provides for modification of the Covered Tax Agreements (i.e. DTAA covered by MLI) to include the intention of eliminating double taxation without creating opportunities for non-taxation or reduced taxation through tax evasion or avoidance including treaty shopping arrangements. Consequently, the Finance Act, 2020 has made amendment in Section 90 to that effect that DTAA should not create opportunities for non-taxation or reduced taxation including through treaty shopping in order to align the purpose of DTAA with the MLI with effect from 1 April 2020.

12.4 Tax deduction at source

In the case of Non-residents, any income received or accrues or arises; or deemed to be received or accrue or arise to him in India is subject to the provisions of tax

deduction at source under the Act. The authorized dealer is obliged and responsible to make sure that all such relevant compliances are made while making any payment or remittances from India to such non- residents. Also, if any tax is required to be withheld on account of any future legislation, the Portfolio Manager shall be obliged to act in accordance with the regulatory requirements in this regard.

Non-residents without PAN or tax residency certificate of the country of his residence are currently subjected to a higher rate of TDS.

12.5 Advance tax installment obligations

It shall be the Client's responsibility to meet the obligation on account of advance tax installments payable on the due dates under the Act. The provisions related to payment of advance tax shall not apply to an individual resident in India, who does not have any income chargeable under the head "Profit and gains of business or profession"; and is of the age of sixty years or more at any time during the relevant Financial Year.

12.6 Securities Transaction Tax

Securities Transaction Tax ("STT") is applicable on transactions of purchase or sale of equity shares in a company or Exchange Traded fund ("ETF") or a derivative or units of Equity Oriented Fund or units of Business Trust entered into on a recognized stock exchange and sale of units of Equity Oriented Fund to the Mutual Fund.

The STT rates as applicable are given in the following table:

Transaction	Rates	Payable by
Purchase/ Sale of equity shares (delivery based) or a unit of Business Trust	0.1%	Purchaser / Seller
Purchase of units of equity oriented mutual fund (delivery based)	Nil	NA
Sale of units of equity oriented mutual fund (delivery based)	0.001%	Seller
Sale of equity shares, units of business trusts, units of equity oriented mutual fund (non-delivery based)	0.025%	Seller
Sale of an option in securities	0.017%	Seller
Sale of an option in securities, where option is exercised	0.125%	Purchaser
Sale of a futures in securities	0.01%	Seller
Sale of unit of an equity-oriented fund to the Mutual Fund	0.001%	Seller
Sale of unlisted equity shares and units of business trust under an initial offer	0.2%	Seller
Sale of unlisted units of a business trust which were acquired in consideration of a transfer referred to in clause (xvii) of section 47 of the Act, under an offer for sale to the public included in an initial offer and where such units are subsequently listed on a recognized stock exchange.	0.2%	Seller

12.7 Characterization of Income on transfer of securities of companies.

Income arising from purchase and sale of securities can give rise to capital gains or business income in the hands of the investor. The issue of characterization of income

is relevant as the income tax computation and rates differ in the two situations.

The characterization is essentially a question of fact and depends on whether the shares are held as business/trading assets or as capital assets.

The Central Board of Direct Taxes (“CBDT”) has issued a circular which deals with listed shares/securities which states that:

- Where the assessee opts to treat the listed shares/ securities as stock-in-trade, the income arising from the transfer of such listed shares/ securities would be treated as business income.
- If the assessed desires to treat the gains arising from transfer of listed shares/ securities held for a period of more than 12 months as capital gains, the same shall not be put to dispute by the Assessing Officer.

Further the CBDT has also issued a clarification for unlisted shares stating that the income arising from transfer of unlisted shares would be considered under the head ‘capital gain’, irrespective of period of holding. It is, however, clarified that the above would not be necessarily applied in the situations where:

- the genuineness of transactions in unlisted shares itself is questionable; or
- the transfer of unlisted shares is related to an issue pertaining to lifting of corporate veil; or
- the transfer of unlisted shares is made along with the control and management of underlying business and the Assessing Officer would take appropriate view in such situations.

Further, in cases not following within the purview of the above circulars, the nature of the transaction (i.e. whether the same is in the nature of capital gains or business income) shall continue to be decided keeping in view the certain points and principles laid down by the judicial precedents and earlier CBDT circulars.

Based on the earlier CBDT circulars and judicial decisions, following are the key factors and principles which need to be considered while determining the nature of assets as above

- Motive for the purchase of shares.
- Frequency of transactions and the length of period of holding of the shares
- Treatment of the shares and profit or loss on their sale in the accounts of the assesseees.
- Source of funds out of which the shares were acquired – borrowed or own.
- Existence of an object clause permitting trading in shares – relevant only in the case of corporate bodies.
- Acquisition of the shares – from primary market or secondary market.
- Infrastructure employed for the share transactions by the client including the appointment of managers, etc.

The issue of income characterization as above is essentially a question of fact and dependent on whether the shares are held as Business / Trading assets or on Capital Account.

Any single factor discussed above in isolation cannot be conclusive to determine the

exact nature of the shares. All factors and principles need to be construed harmoniously. Further, the background of the investor (Professional vs. a trader in shares) would also be a relevant factor in determining the nature of the shares.

CBDT has clarified that, it is possible for a tax payer to have two portfolios, i.e., an investment portfolio comprising of securities which are to be treated as capital assets and a trading portfolio comprising of stock-in-trade which are to be treated as trading assets. Where an assessee has two portfolios, the assessee may have income under both heads i.e., capital gains as well as business income.

In view of the above, the profits or gains arising from transaction in securities could be taxed either as “Profits or Gains of Business or Profession” under section 28 of the Act or as “Capital Gains” under section 45 of the Act.

As per CBDT Circular No.6/2016 dated 29 February 2016 regarding taxability of surplus on sale of listed shares and securities, it states that:

- a) Where the assessee itself, irrespective of the period of holding the listed shares and securities, opts to treat them as stock-in-trade, the income arising from transfer of such shares/securities would be treated as its business income
- b) In respect of listed shares and securities held for a period of more than 12 months immediately preceding the date of its transfer, if the assessee desires to treat the income arising from the transfer thereof as Capital Gain, the same shall not be put to dispute by the Assessing Officer. However, this stand, once taken by the assessee in a particular Assessment Year, shall remain applicable in subsequent Assessment Years also and the taxpayers shall not be allowed to adopt a different/contrary stand in this regard in subsequent years.

It should also be noted that in the context of portfolio management services there has been litigation in the past on the characterization of income and judicial precedents have taken positions based on facts of each case.

12.8 TAX IMPLICATIONS WHERE TRANSACTION IN SECURITIES ARE IN THE NATURE OF INVESTMENTS

Where investment under Portfolio Management Services is treated as investment, the gain or loss from transfer of securities shall be taxed as Capital Gains under section 45 of the Act.

The Finance Act, 2020 has amended the provisions relating to taxation of dividend income. The dividend distribution tax (DDT) [has now been abolished on dividend declared, distributed or paid by domestic companies or income on units distributed by mutual funds with effect from 1 April 2020. Tax on dividend distributed by domestic companies and income from units of mutual funds will be borne by the recipient of dividend/income at respective slab rates or fixed rate, as the case may be. To avoid double taxation of dividend, dividend received by a domestic company from another domestic company or specified foreign company or business trust will not be taxable in the hands of first domestic company, provided such receipt of dividend does not exceed the amount of dividend distributed by the first mentioned domestic company

one month prior to the due date of filing a return under Section 139(1). In the case of

a resident shareholder, withholding tax of 10% will be levied on dividends declared/paid by domestic company whereas in the case of a non-resident shareholder, withholding tax at the rate of 20% or the rates that are specified in the DTAA, whichever is beneficial to him, would apply. Further, the minimum threshold for applicability of withholding tax on dividend payments to the resident shareholder during the Financial Year will be INR 5,000.

As per the amendment made to section 115QA of the Act, by the Finance (No.2) Act, 2019 w.e.f. 05 July 2019, even the companies listed on recognized stock exchanges have to pay tax on distributed income included in the buyback of shares at the rate of 20% on such distributed income. Consequently, the amount received by the shareholders on buy back of shares will be exempt under section 10(34A) of the Act in the hands of the shareholder.

12.9 LONG TERM CAPITAL GAINS

As per the earlier provisions under Section 10(38), Long Term Capital Gains on sale of Equity Shares in a company or units of Equity Oriented Fund are exempt from income tax provided such transactions are entered on a recognized stock exchange or such units are sold to the Mutual Fund and such transactions are chargeable to STT. However, the Finance Act 2018 amended the said provision by imposing tax on Long Term Capital Gains exceeding INR 1 lakh at the rate of 10%, without allowing any indexation benefit. However, all gains up to 31 January 2018 will be exempt from such tax.

Further, withholding tax on distributed income by equity oriented mutual funds would be 10%. The CBDT has clarified that the proposal of 10% withholding tax as per the Finance Act, 2020 will be applicable only on dividend payment by mutual funds and not on gain arising out of redemption of units.

Exemption does not Apply

In respect of capital gains not exempted under section 10(38), the provisions for taxation of long-term capital gains for different categories of assessee and depending upon the period for which the securities are held, are explained hereunder:

Sr. No	Securities	Period of Holding	Characterization
1	Listed Securities (other than Units) and units of equity oriented Mutual Funds	More than twelve (12) months	Long-term Capital Asset
		Twelve (12) months or less	Short-term Capital Asset
2	Unlisted shares of a company	More than twenty-four (24) months	Long-term Capital Asset
		Twenty-four (24) or less	Short-term Capital Asset
3	Other securities	More than Thirty-six (36) months	Long-term Capital Asset
		Thirty-six (36) months or less	Short-term Capital Asset

Long-term Capital Gains in respect of capital asset (other than listed securities and units of equity oriented mutual funds) will be chargeable under section 112 of the Act at the rate of 20% plus applicable surcharge and education cess, as applicable. Capital gains would be computed after taking into account cost of acquisition as adjusted by Cost Inflation Index notified by the Central Government and expenditure incurred wholly & exclusively in connection with such transfer.

In case where taxable income as reduced by long term capital gains is below the exemption limit, the long-term capital gains will be reduced to the extent of the shortfall and only the balance long term capital gains will be charged at the flat rate of 20% plus applicable surcharge and education cess, as may be applicable.

As per Finance Act, 2017, the base year for indexation purpose has been shifted from 1981 to 2001 to calculate the cost of acquisition or to take fair market value of the asset as on that date. Further, it provides that cost of acquisition of an asset acquired before 1 April 2001 shall be allowed to be taken as fair market value as on 1 April 2001.

12.9.2 For Non-resident Indians

Under section 115E of the Act,

- (i) any income from investment or income from long-term capital gains of an asset other than specified asset as defined in Section 115C (Specified Assets include shares of Indian Company, Debentures and deposits in an Indian Company which is not a private company and securities issued by Central Government or such other securities as notified by Central Government) is chargeable at the rate of 20% plus applicable surcharge and cess.
- (ii) Income by way long-term capital gains is chargeable at the rate of 10% plus applicable surcharge and cess.

Long term capital gains arising to a non-resident from transfer of unlisted securities or shares of a company, not being a company in which the public are substantially interested, subject to 10% tax (without benefit of indexation and foreign currency fluctuation).

12.9.3 Tax on Long Term Gain in Certain Cases:

Under section 112A of the Act, long-term capital gains on transfer of (i) listed equity shares on which STT has been paid both at the time of acquisition and sale of such shares; or (ii) units of equity oriented mutual fund or business trust on which STT has been paid on transfer; shall be chargeable to tax at the rate of 10% on such long-term gains exceeding one lakh rupees. However, all gains up to 31st January, 2018 will be exempt from such tax.

In case of Individual or HUF being a resident, where the taxable income as reduced by long term capital gains is below the exemption limit, the long-term capital gains will be reduced to the extent of the shortfall and only the balance long term capital gains will be charged at the flat rate of 10% plus cess, as may be applicable.

The Taxation Laws (Amendment) Ordinance, 2019 dated 20th September 2019 provided that in case where the total income includes any income chargeable under Section 111A and Section 112A of the Income Tax Act, the rate of surcharge on the amount of income-tax deducted in respect of that part of income shall not exceed 15% for an individual, HUF, AOP, BOI and Artificial Judiciary Person.

The condition with respect to STT shall not apply to transfers undertaken on a recognized stock exchange located in any International Financial Services Centre and where the consideration for such transfer is received or receivable in foreign currency.

12.10 Short Term Capital Gains

Section 111A of the Act provides that short-term capital gains arising on sale of Equity Shares of a company or units of Equity Oriented Fund or units of a business trust entered on a recognized stock exchange and on sale of units of Equity Oriented Fund to the Mutual Fund are chargeable to income tax at a concessional rate of 15% plus applicable surcharge and cess, provided such transactions are entered on a recognized stock exchange and are chargeable to STT. However, the above shall not be applicable to transaction undertaken on a recognized stock exchange located in any International Financial Services Centre and where the consideration for such transaction is paid or payable in foreign currency. Further, Section 48 provides that no deduction shall be allowed in respect of STT paid for the purpose of computing Capital Gains. In respect of capital gains not chargeable under Section 111A, the provisions for taxation of short-term capital gains for different categories of assesses are explained hereunder:

Short Term Capital Gains in respect of shares of a company (listed on a recognized stock exchange), units of Mutual Fund, units of Business Trust and any other listed securities held for a period of not more than 12 months and share of a company (not being a share listed in a recognized stock exchange) held for a period of not more than 24 months is added to the total income, total income including short-term capital gains is chargeable to tax as per the relevant slab rates.

The Taxation Laws (Amendment) Ordinance, 2019 dated 20 September 2019, provided that in case where the total income includes any income chargeable under Section 111A and Section 112A of the Income Tax Act, the rate of surcharge on the amount of income-tax deducted in respect of that part of income shall not exceed 15% for an individual, HUF, AOP, BOI and Artificial Judiciary Person..

12.11 PROFITS AND GAINS OF BUSINESS OR PROFESSION

12.11.1 If the investment under the Portfolio Management Services is regarded as “Business / Trading Asset” then the gain / loss arising there from is likely to be taxed as income from business as per slab rates i.e. in the case of resident individual and HUF and at the rate of 30% or 25% or 22% plus applicable surcharge and cess, (as the case may be, in case of resident other than individual and HUF (as the case may be) and also for non-residents other than a foreign company (assuming the highest slab rate for individual). It shall be taxable at the rate of 40% (plus applicable surcharge and cess) in case of a foreign company. The above rates would be subject to availability of

benefits under the DTAA, if any in case of non-resident assessee.

12.11.2 Interest income arising on securities could be characterized as 'Income from Other Sources' or 'business income' depending on facts of the case. Any expenses incurred to earn such interest income should be available as deduction, subject to the provisions of the Act.

12.11.3 Earlier, as per section 40(a)(ib) of the Act, any sum paid on account of STT will not be allowed as deduction in computing the income under the head "Profit and gains of business or profession" However, this provision was applicable only up to assessment year 2008-09. With effect from April 1, 2009, the said clause has been deleted. From the assessment year 2009-10, where income referred to above is treated as Business Income, the person is eligible for deduction u/s 36(1)(xv), for the amount of STT paid.
